

HL Ádís Ulfsdóttir (Suzanne Laney)
Apprentice and Protégé to HM Mistress Sadb Jófreysdóttir

Officer Positions Held:

Sanguinaris: Principality Herald of Avacal August 2006-2008

- Created the digital complete list of Avacal Heralds.
- Organized Herald reporting, as many groups were not yet doing so yet. I was told many had never dealt with the Sanguinaris herald before. Worked with Royals to ensure Awards records that had been lost were recreated.
- I created handouts to train heralds in how to report, including what information I needed and when it should be sent. I also created a Basic Voice Heraldry THUA class.
- Designed and arranged the first Online forms for Avacal Heralds to use for reporting.
- Fundraised Principality wide for a new Library and raised \$3000. This was to for donations to buy specific Heraldry Books and ensure that all books would be ones that could be referenced for passing names and Arms without needing to be copied for Laurel.
- Was asked by Prince Stein to pass our Principality award names as Stein had been told that if we wanted to prove we could run Kingdom level Heraldry, the Principality awards must be passed. I was asked to do this and have it completed during his reign.
 - Researched possible award options and discussed possible award names with other heralds online, to try to ensure that what I submitted would pass with no rejections. Of the original awards, only the Gilded Griffin was passible.
 - Proposed a plethora of name possibilities to Stein, all fully researched to pass, which he chose his favorites from.
 - Submitted to Laurel the following Avacal Principality Award Names; Red Gryphon of Avacal, Heart and Gryphon, Silver Lute, White Claw, Order of Fortitude, Golden Flame, and Gilded Feather. I also passed The Order of the White Tower, and The Order of Avacal, which are used now for the Kingdom of Avacal.
- Was Vox for Principality Events and Kingdom Courts
- Arranged for voice heralds for tournaments and town crier at Principality events
- Organized Heraldic Tables and assisted with name and device research

Contingency Deputy for Bardic Deputy Officers Sept 2014-2016

- Kasha Machevelli, Bieiris de Romans and I worked on trying to gain support for the creation of a Kingdom Bardic Championship as a team. While she was Bardic Deputy, Kashi and I started getting forms used in the Baronial Tournaments. I ran multiple big 4 event bardic competitions and circles to help Bieiris.

Kingdom Bardic Deputy Officer Sept 2016- November 2018

- Ran all the Bardic at the big four events for approximately a year and a half. This included Kingdom Bardic competitions, circles and evening entertainment at Crowns and Coronations. In the last 12 months, I encouraged others to gradually take on these responsibilities, so as to make the officer position focused on its actual mandate of encouraging Bardic vs DOING Bardic.
- Rosilyn of Borealis was my Contingency Deputy. She had the great idea of the Office doing a tournament of tournaments for Bardic. I implemented the idea and added this tracking to the duties for the Office. I was able to hold one of these competitions during my term.
- I submitted written proposals of the reasoning for a Kingdom Bardic Championship, plus other options that could prepare the Bardic community for a Championship including Royal Bard, to the Royal couples who reigned during my time with the long term hope of a Kingdom Bardic Championship. This was part of the continuing campaign by Bardic Deputy Officers that had started with Kasha Machavelli.
- I arranged with Royals and the Kingdom Seneschal for the rewrite of my Office posting in terms of the unofficial job tasks to ensure the ability of the next Officer to function in a more realistic manner in terms of Kingdom event expectations. The original included all tasks an Officer would do plus all the jobs a Champion would normally do.

Baronial Herald (Montengarde) August 2003-2005

- Ran Court for Their Excellencies and was Vox
- Reported all Baronial Awards and reported to Sanguinaris Herald
- Attended Council meetings
- Arranged for voice heralds for tournaments and town crier at local events
- Organized Heraldic Tables and assisted with name and device research

- **Royal Herald:** Reported awards and wrote the scripts for their award scrolls.

- Donnan Sionnach created a fabulous booklet format for being a Baronial voice herald, and he gave it to me to use for designing Principality court. I could create the booklet for courts ahead of time for the herald and then ensured both Their Highnesses and the Herald had a copy. This meant that the Herald could actually eat dinner at court! And also that they didn't have to create cards or worry about losing cards as everything they had to read was already prepared for them. They also didn't have to worry about the script not being on the back of scrolls. This format was used for all reigns I was Royal Herald.

Wernar had created the Principality Silver Gryphon too, by the way, for those who have forgotten. This is MAAAYbe why Bards sing so many songs about Wernar ;)
